Office, 81 Pine street, New York. PATENT WEATHER GUARDS.

PATENT WEATHER GUARDS.

PROTECTION, COMFORT, AND ECONOMY.—

A. HALL respectfully informs the citizens of Washington and Georgetown, that he is now prepared to execute all orders, with promptness and dispatch, of those who may be annoyed by the wind and rain driving under their doors, thereby destroying carpets, ruining furniture, and rotting the sills and floor, so that, in a short time, it will cost three times the amount to repair them than that of a preventative in the first instance. The merits of these weather-protecting instruments need only be seen to be appreciated. Out of a large list of persons for whom I have put them on, I beg leave to refer to the following gentlemen:

mtlemen:
Hon. W. W. Seaton, ex-Mayor, Washington.
Captain Mordecal, U. S. Arsenal and U. S. Observatory
Hon. B. B. French, Capitol Hill.

Dr. Riley, Georgetown.

Messrs. J. Kirk, J. Robinson, and G. Riley, Island.

Orders left at Garrett & Davis' Carpenter Shop, Fourand-shalf street; at Campbell & Coyle's Hardware Store; t Hatch & Co.'s Lamp Store, Pa. av.; at J. Kidwell's Pr Store, Georgetown; or at my house, 13th street, near I, will be promptly attended to.

BOKER, BROS. & JONES, 82 Market street, Philadelphia, invite the attention of the trade to their splendid stock of Fancy and Staple BONNETS and HATS, of all kinds, purchased for cash in Europe by one of our firm; and also an assortment of city and eastern made Boots and Shoes. All of which they offer at very low rates.

IMPLEMENTS AND MACHINERY, exhibited a the State Fair in 1850, will be seen by the award of Pr miums below: THE BEST AND MOST VALUABLE AGRICULTURAL niums below:

Awarded to E. Whitman, jr., No. 55 Light street, Balti-nore, by the Maryland State Agricultural Society, at their
d Annual Fair, held in Baltimore 23d, 24th and 25th of 3d An

Austin's Magic Freezer,
Through in eix minutes. For the preparation of
Ice Creams, Water Ices, &c.—Patented September 19, 1848.

tember 19, 1848.

THE distinguising merits of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Oream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

cheerfully recommend it to the public."

L. F. JACKSON,
Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, [10 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

Baltimore, April 6, 1851."

Manufactured and for sale by the patentee.

No. 61 N. Entaw street, near Saratoga Also, by CORTLAN & CO., No. 203 Baltimore street. County and State rights for sale.

AMERICAN HOUSE, Hanover street, Boston.

AMERICAN HOUSE, Ranover street, Boston.

THE Undersigned having entirely rebuilt and entirely in the larged the above extensive establishment, containing in all about three hundred and fifty rooms; would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect.

The furniture was made axpressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home, mar 24

DELAWARE COLLEGE

THE Faculty of Instruction of this Institution,
tis present organization, consists of the following Professorabips, to wit:
A Professorabip of Montal and Moral Science,
A Professorabip of the Greek and Latin Languag
A Professorabip of Mathematics and Natural P

phy,
A Professorship of Rhetoric and Belles-Lettres,
A Professorship of Chemistry and Natural History,
A Professorship of Civil Engineering,
A Professorship of Modern Languages and Drawing.
The Collegiate year is divided into two sessions or term
of twenty-one weeks each. The first session commence
on the fourth Wednesday of October; and the second or
the fourth Wednesday of April. Each is followed by a
vacation of five weeks. COURSE OF INSTRUCTION.

COURSE OF INSTRUCTION.

FRESHMAN CLASS.—I. Livy, begun; Xenophon's Anabasis; Algebra, begun; History, begun;
II. Livy, finished; Homer's Odyssey, begun; Algebra, finished; Geometry, begun; Homer's Odyssey, finished; III. Horace, begun; Homer's Odyssey, finished; Geometry, five books; History, finished; Junion Class.—I. Tacitus, begun; The Prometheus of Æschylus and Electra of Sophocles; Analytical Geometry, finished; Calculus; Natural Theology; Evidences of Christianity.

danity.

II. Logie; Mental Philosophy; The Alcestus of Euri pides; Tacitus, finished; Natural Philosophy; Mechanics begun.

III. Moral Philosophy; Plato's Gorgias; The Captive of Plautus; Mechanics, Hydrostatics, Pneumatics, and

of Plautus; Mechanics, Hydrostatics, Pneumatics, and Meteorology.

Sophomore Class.—I. Horace, finished; Xenophon's Memorabilia; Geometry, finished; Rhetoric, begun.

III. Cicero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetoric, finished.

SENOR Class.—I. Political Philosophy; The Andria of Terrence; The Clouds of Aristophanes; Acoustics, Optics, Electricity, Magnetism.

II. Elements of Criticism; Butler's Analogy; Cicero's Tusculan Questions; Demosthenes de Corona; Voltaic Electricity or Galvanism; Electro-Magnetism, Magneto-Electricity, Electro-Dynamics; Astronomy, begun.

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity; Chemistry and Geology.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

PLANTA TIONS.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION. RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

such rooms as may be assigned them by the Facuity.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Felton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Decring's Latin Reader, Saliust or Cæsar, Cicero's Scheet Orations, and Virgil, or what shall be deemed equivalent.

EXPENSES.

and Virgil, or what shall be deemed equivalent.

EXPENSES.

ENTRANCE FEE.—If the student enter as Freshman, five dollars; if as Sophomore, ten dollars; if as Junior, fifteen dollars; and if as Senior, twenty dollars.

1st Session. 2d Session.

Tultion. \$21 00 \$21 00

Room rent . 4 00 \$20 00

Incidental expenses . 1 00 1 00

Incidental expenses . 1 00 1 00

Fuel for Oratory and Recitation room 1 50

Fuel is afforded to the students at cost. A sum equal to the probable cost is advanced by each student; if more is consumed it is charged to him; if less, the balance is refunded.

s consumed it is considered.

Board is furnished with the families of the Professors at two dollars per week.

Washing, at the usual rates.

All dues are payable in advance. The tuition is remitted, on application, to all students designed for the Minstry.

The tuition fee for Modern Languages will be eigh dollars per session, to be paid to the Instructor in ad-

donars per session, to be paid to the instructor in advance.

For students who do not design to proscopte the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably anticipated. The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, scriatim, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

Astronomy, &c.

2d. As ENGLISH DEPARTMENT—Comprising instruction in Orthography, Reading, Elecution, Grammar, Writing, Geography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

Christianity.

3d. A MERCANTILE DEPARTMENT—In which will be im parted an acquaintance with all that is necessary to qualify youth for the immediate duties of the counting-house, including—

1. Penimanship—By an original and popular system of

peculiarly adapted to the purposes of the accountant and business man.

2. Artimetic—Comprising numerous abbreviated me-thods of computing Interest, Discount, Equation of Pay-ments, &c., and other mercantile calculations founded on per centage; together with all such operations as are re-quisite for a thorough knowledge of the business of the counting-room.

quisite for a thorough knowledge of the business of the counting room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Agricultural Department—Comprising a selection from the English and Mathematical courses; and, also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th. A Civil. Engineer. Department—In which are taught Arithmetic, (mental and written,) Algebra, (mental and written,) Geometry, Trigonometry, Surveying, with the use of instruments in the field, Practical Engineering, Architecture, Perspective, Draghting, and Topography.

neering. Architecture, Perspective, Draughting, and Topography.

6th. A Teachen's Department.—The course of study
will consist of a judicious selection of subjects from the
other departments, including all the branches pursued in
our commou schools. Practical Lectures will also be given
on School Teaching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction
relative to the best and most popular methods of teaching,
but they will also have opportunities of exemplifying
them, by hearing recitations in the lower departments of
the Institution.

7th. A Department of Modern Languages—In which

the Institution.

7th. A DEPARTMENT OF MODERN LANGUAGES—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facility, and to pronounce with tolerable correctness, in as short a time as possible, are also provided for.

Newark Academy.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the Starty, may enjoy the use of the College lasses can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tu

WILMINGTON BOARDING SCHOOL
one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from
the fact that, cince the establishment of the school, about
twenty-eight years, very few cases of serious indisposition
have occurred among the pupils, and not a single death
either here, or from diseases contracted while here.
The course of instruction mestudes, besides the ordinary
English branches, Natural Philosophy, Chearistry, Physiology, History, Rheitoric, the various branches of Mathematice, and the Latin, Grock, and French languages. Particular attention is paid to the ligher Mathematics and
their aspitation to alsochanics and Engineering; the latter
and Surveying are taught practically by field operations,
with the use of appropriate instruments. Lectures on
Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are
regularly delivered before the students.

As the object is to make the instruction as thorough
and practical as possible, no expense has been spared in
providing suitable apparatus. It is believed that, in this
respect, the Institution will compare favorably with any
similar one in the country. A carefully selected library,
of more than one thousand volumes, containing works on
the various branches of Literature and Science, furnishes
ample reading matter; while a Laboratory, fully supplied
with apparatus and tests, contains all that is necessary for
practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day
(Monday) of the Ninth month, (September,) and is divided

ractical instruction in Chemical Manipulation.

The school year commenced on the third Second-day Monday) of the Ninth month, (September,) and is divided its four quarters of eleven weeks each, leaving a vacation it two months, from about the middle of the Seventh and (July).

Principal, Wilmington, Del. of two

MORE HOME EVIDENCE.

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS.—
Im. JAS. L. HAMILTON—DEAR SIR: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have witnessed from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long direction, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my disease. and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsis, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

J. HOWARD GRIFFITH,

Marshall Buildings,

Baltimore, Aug. 24th, 1850.

VALUABLE LAW ROOKS

VALUABLE LAW BOOKS. WE invite the attention of the Profession, and others which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports

English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3.50 per vol.

For the succeeding, 2.50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
off even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng lish Common Law Reports. By Hon. George Sharswood and George W. Biddle,

By Hon. Groker Sharkswood and Gröker W. Biddle, Esqrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports-Pleas and

Equity.

To be reprinted in full, in best style, with American Notes, by J. I. CLARK HARE and H. B. WALLACE, Esqrs, at 250 per vol., bound.
Including McClelland and Younge, Younge and Jervis, crompton and Jervis, Crompton and Mecson, Crompton, deeson and Roscoe, Meeson and Younge and Collyer—in Zouity. Equity.

Meeson and Welsby, in 19 vols., Welsby, Huristone an Gordon, vol. 1, published and ready for delivery.

We take pleasure in referring to the accepters, explanatory of the character of these Reheir value to the Profession in this country:

The superstance of t

CAMBRIDGE, January 25, 1845.

Gentiemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Plens and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Messrs. T. & J. W. Johnson.

Mesers. T. & J. W. Johnson.

Law Library.

Law Library.

Fourth Series—Porty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

Leading Cases in Law and Equity.

Leading Cases in Law and Equity.

In Three Series—With American Notes.

1. White and Tudor's Leading Cases in Equity, 1 vol.
8vo. \$4 50; with coplous and elaborate American Notes, by Mesers. Hare & Wallace.

2. Smith's Leading Cases, 2 vols.—\$10.

Thir! American Edition—with Notes and References to late Er flish and American Decisions, J. I. Clark Hare and H. B. 'fallace, Esqrs.

3. A vertean Leading Cases, 2 vols.

Containing voluminous and learned notes to the Leading Cases in Mercantile Law decided by the American Courts. Edited by John Innis Clark Hare, Esq., and Horace Binney Wallace, Esq.—\$9.

The English Ecclesiastical Reports.

Seen Volumes—\$23 50.

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain eventien English volumes condensed in seven.

"We respectfully commend this series to the notice of seventeen English volumes condensed in seven.

"We respectfully commend this series to the notice of
the Profession. It contains the only reports of the many
important cases of Wills, Settlements, Divorces, &c., and
covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports
of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Crown Cases Reversed. British Crown Cases Reversed.

Three Volumes—\$0.

From 1706 to 1840—To be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three volumes already published contain all the Reversed Cases since Leach.

REAL ESTATE IN VIRGINIA FOR SALE.

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still deel-rous of selling, and will do so on accommodating terms. It censists, first, of \$60 acres of land, in from two and a half to four miles of Brentsville, the county town, four-teen miles of Decoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Raliroad, which will be completed to Brentsville this year. This land is well adapted to the growth of wheat, corn, rye, cats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plaster, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a company, or will divide it to sait purchases, at prices ranging, according to quality, at from \$3 to \$5 per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or blacksmith, with two dwelling-houses, kitchens, blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1600 is now my price for this property—on the same terms as the land. It is within a mile and three quarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turnpike, just above Buckland, on which are a good dwelling-house, a large wheelwright, shop, kitchen, stable, dairy, and smoke-house. It would make a good tayern stand, and the shop a good stable. For this property I will take \$500—on the same terms.

nd the shop a good stable. For this property I will take 500—on the same terms.

Fourthly. A large lot in the village of Buckland, known s the tan-yard lot, on which there is a comfortable house nd kitchen—lot enclosed. The tan-yard is in bad condition, but might be easily resuscitated, and is a very good lace for the business. For this I will take \$400—on like years.

place for the business. For this I will take \$400—on like terms.

Fifthly. A lease lot in Haymarket, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghany county, Maryland, containing 200 acres, within eight miles of the National Road, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood, is heavily timbered, has a good and never-failing stream of water running through it, and several mill-seats; abounds in iron ore and coal; has a fine sugar maple orchard on it, and a mineral spring, which I think equal to the White Sulphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William county, Virginia, will be shown by Eppa Hunton, esq., who is authorized to sell; or by Mr. Edwin ville about the middle of May, and will, in person, show the property to any one wishing to purchase.

ville about the middle of May, and will, in person, the property to any one wishing to purchase.

HENRY A. BARRON,

FURNISHING MAIL LOCKS & KEYS.

Post Office Departments, \(\)

March 14, 1851.

It being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, nishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an addi-tional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

tional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patente will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Post Office Department. the kent of lock adopted must be patented, and the patente will be required, on entering into contract, make an assignment of his patent for the contract and with security in the failure of the contract and the service. In case of the failure of the contract and with may other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon, the proposals and specimens offered, the Postmaster General s

spection of the locks and keys, and also for guarding against their passing into improper hands; the terms of these provisions to be arranged between the Department and the successful bidder, if a bid should be accepted.

No application will be considered if not accompanied with satisfactory evidence of the trustworthy character of the bidder, and of his ability to fulfil the contract.

HUNT'S MERCHANTS' MAGAZINE

BY FERRIAM HUNT, EDITOR AND Factor of the West and the twenty third semi-amusal volume. The work has been marged since its commencement in July, 1839, and each column now contains most than a transfer of the Margaine may be a supply to the Margaine may be the Margaine may be a supply to the Margaine may be a supply to the Margaine may be the Ma BY PREEMAN HUNT, EDITOR AND PROPRIETQUE

The following are a few of the many commendate ters received by the editor of the Merchants' Ma from distinguished statemen:

Letter from the Hon. Henry Clay.

Letter from the Hon. Henry Clay.

ASHLAND, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your flatenants in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to suff information and amusement, we are naturally desirous to possess all the knowledge of them, of their spearsner, of the fattures of their countenance, and of the churacter and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a larger amount of valuable statistical and other information, highly useful not only to the merchant, but to the states man, to the cultivator of the earth, to the manners in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that thas been, and

highly useful not only to the merchant, but to the states man, to the cultivator of the earth, to the manifecturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized. Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

Freeman Hunt, esq.

Extract of a letter from Hon. Millard Filmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in earing that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indipensable, and to the stateman and man of general information almost equally destrable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these humbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

Washingson Cirr, April 30, 1848.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchanta's Bagazine, and have found it in reality to be a megazine, and that well replenished, of all the unsulu matter, which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchanta' magazine in the large acceptation of the term—merchants who go, between nations, where large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the use of morn modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchantes, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the

THOMAS H. BENTON.

Letter from Hon. Wm. H. Scourd,

My Dear Sir: Have the goodness to place my name or your list of subscribers for the Merchante Magazine. regard it as an invaluable work for the use of all wh would understand not merely commercial operations is this extending country, but the fiscal and commercial questions involved in the administration of the government.

ment.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWARD.

COLD SPRING WATER CURE.

COLD SPRING WATER CURE,

THIS NEW AND SPLENDID ENTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing insignistically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate sevently-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of M. Davis, M. D., Professor of the Theory and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical beard of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwested pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themelves of its benefits. Baths of all descriptions, adapted to the care of the various forms of disease, and constructed on a scale of the first of the control of the public sentiment has everywhere repu-

of the various forms of disease, and constructed, on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide, and fatal departure from the simplicity of Nature's lower is called for, alike by a rational love of happinese and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and cursive agent, is a practical substitution of a simple and remarkably effections mode of curing the sick; for that system of drugging, depleting, and cauterising, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promutigators of the great truths communications unnecessary. It is deemed sufficient do say, that the "Cold Spring Water Cure" will compute favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirablences of its arrangements. The institution is now open for the reception of patients, and in full operation.

TERMS.

For board, medical advice, attendance and nursing, &c., from \$7 to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will be required to furnish two linen sheets, two cotton comforters, one woollen blanket, and four towais; or, where it is not convenient for the patient to furnish (from as above, they can be supplied at the establishment by paying fifty cants a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davis, M. D., 239 Main street, Buffalo, N. Y.

S. M. & G. W. DAVIS & Co., Buffalo.
